Installation Instructions

1. Turn off the gas and the power.
2. Locate the junction box. Remove the cover and locate the time delay relay to be removed (see illustration, left below).
3. Mark and disconnect the wires from the time delay relay. Remove the relay from the junction box.
4. Inside the junction box, attach the new time delay relay. Follow the diagram below that applies, to reconnect the wires and add the new wire from the kit.
5. Replace the junction box cover.
6. Turn on the electric and gas. Refer to the Operating Sequence on the unit wiring diagram and check for proper operation.
