

REZNOR®

Packaged HVAC System

Unit Heater

Split HVAC System

Condensing Gas Heating Units (92% Efficient)

The Energy Edge

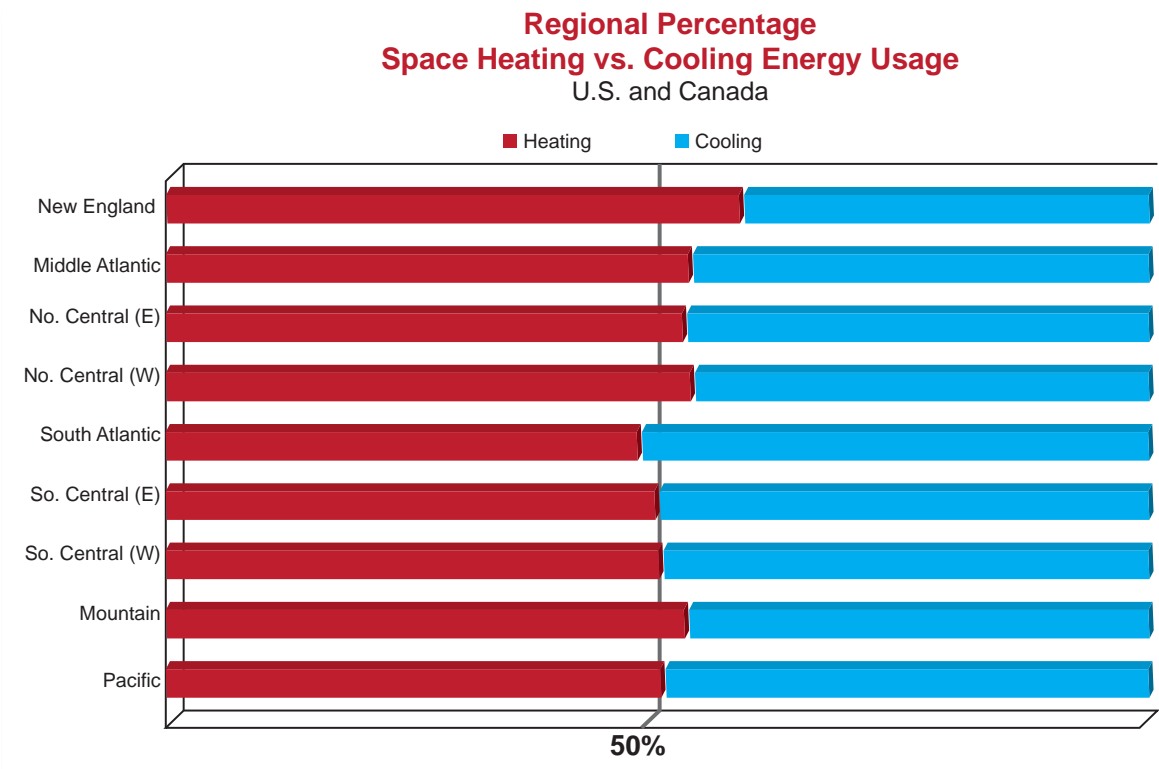

What is the Reznor Edge?

The Reznor Edge: Providing condensing gas heating technology where you need it.

- Packaged rooftop units, split systems, and unit heaters
- Space heating, makeup air, and ventilation applications

The graph below illustrates that there is a larger need for heating than for cooling in commercial buildings in most every region in North America.

High Efficiency = Highest Savings

Average of all building types.

Sources: U.S. Dept. of Energy CBECS Studies & NRCAN Energy Data Handbook 2010

Since heating makes up the larger expenditure, saving on the monthly heating bill will make more of an impact on overall utility bills.

- Packaged Rooftop Units - Models YDMA, YDSA, and YDHA
- Split Systems - Models RHH (outdoor) and SHH (indoor)
- Unit Heater - Model UEAS
