

REZNOR®

**The #1 Name
in Quality Gas
Unit Heaters
World-Wide**

The Competitive Edge

What is the Reznor Edge?

The Reznor Edge: Over 70 years of proven leadership and innovation in commercial, residential and industrial unit heaters that others have only tried to copy. Our current generation of unit heaters is superior to other manufacturers' heaters. Here's why.

Demonstrable, proven competitive advantages:

	Reznor	Other Mfrs.	Comment
Range of Sizes	✓	✓	25 - 400 MBH
Aesthetics	✓		European design with appliance grade finish
Quiet	✓		Fan and venter motor isolation for the quietest published sound data
Variety	✓		Most styles and options available in the market
Fuel Efficiency	✓		More fuel efficiency means lower fuel usage for the same capacity - means less expense
Fan Efficiency	✓		Smaller fan motors can be used because the specialized heat exchanger design has less air turbulence
Power Consumption	✓		Smaller motors use less electricity
Air throw	✓		Less air turbulence relates to freer air movement
Overall average size	✓		Specialized heat exchanger design is smaller which means smaller overall volume
Average weight	✓		Specialized heat exchanger design is lighter
Installation	✓		Installation is easier and goes quicker due to external gas and thermostat connections
Fuel convertible	✓		Easier to convert to propane (or natural gas) in the field because it only requires one orifice and one spring kit
Reliability	✓		Most reliable unit backed by the best warranty (10 years on the heat exchanger, 5 years on all other mechanical or electrical parts)
Innovation	✓		<ul style="list-style-type: none"> • First gas heater (1888) • First suspended, gas fired unit heater (1937) • First separated combustion unit heater (1950) • First concentric adapter (1965) • First high efficiency unit heater (1983)
Quality	✓		The brand name that is synonymous with quality unit heaters in the HVAC industry
